ELLIPS HIGH PERFORMANCE COST EFFECTIVE QUALITY GRADING FITTED ON OUR NEW SIZERS OR RETROFITS

Ellips of Holland have been developing user friendly quality grading for over 20 years.

Ellips are leading suppliers of fruit grading electronics in 35 countries.

The **EFG400 PROGRAMME** offers the ultimate quality grading for apples, citrus, stonefruit, pears, tomatoes + ++

- best price/performance available in the market
 - can grade up to 24 lanes simultaneously
 - speed of up to 25 cups/second per lane
- grade on weight, length, diameter, curvature, colour, quality, reflection and more
- grading algorithms are easily used and can be adjusted by the user for all cultivars
 - no need to keep training the defect sorter
 - user friendly interface that allows for easy modification
- remote internet support for control and adjustment by ourselves of your sizer
 - prepared for tracking and traceability software
